STRATA_HEAT™ Radiant Floor Heating System

Enjoy the comfort of a warm, heated floor in your bathroom, kitchen, hallway, and more. STRATA_HEAT™ is an energy efficient radiant heating system for installation under tile, stone, and resilient flooring. It's easy to install and will provide warmth at a savings of up to 15%.^v

The STRATA_HEAT Radiant Floor Heating System consists of a high performance floor warming wire, an uncoupling mat, Wi-Fi enabled thermostats, and the world's first heat conductive thin-set additive.

detailed product
information.

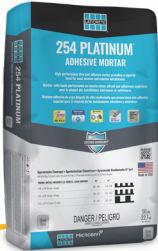

STRATA_HEAT Thermal Pack[®]

Utilizing exclusive thermal diffusion technology, the STRATA_HEAT Thermal Pack conducts heat from the STRATA_HEAT Spliceless Wire which quickly and uniformly is distributed throughout the system, helping optimize energy output and reduce energy cost by up to 15%.[†]

STRATA_HEAT[™] Thermal Pack[^]

254 PLATINUM[™]

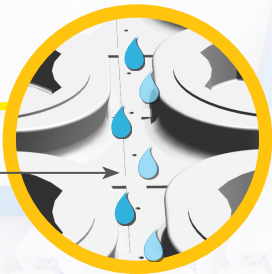

Recommended thin-set adhesive mortar for best performance

STRATA_HEAT Mat

An innovative uncoupling membrane designed to accommodate the STRATA_HEAT Spliceless Wire with multiple spacing options to customize your installation.

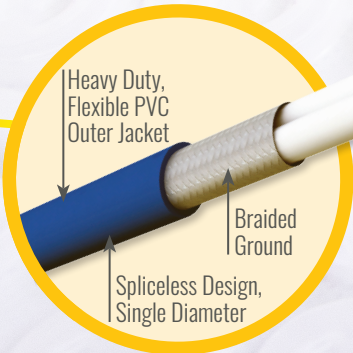

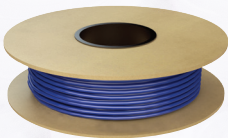

Adhesive Mortar Hydration Vents

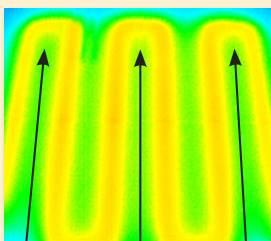

Create a mechanical bond between the mat and thin-set adhesive mortar allowing the mortar to cure faster, providing a stronger bond.

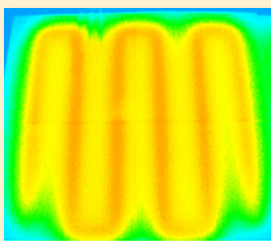

STRATA_HEAT Spliceless Wire

Energy efficient design maximizes heat transfer and is available in 120v / 240v.

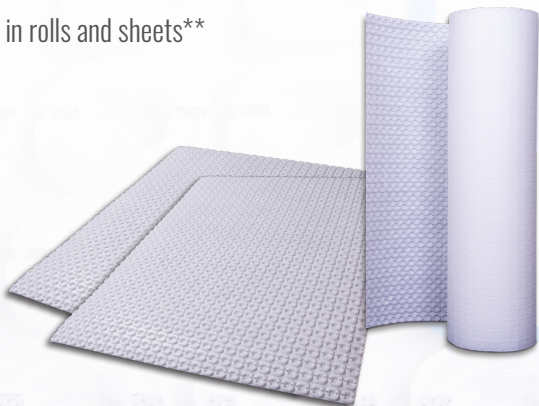

Standard tile adhesive shows cold spots between wires

STRATA_HEAT™ Thermal Pack diffuses heat uniformly

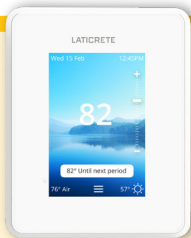

Available in rolls and sheets**

Easily design your space for heated floors using the **LATICRETE Floor Warming Layout Tool** at laticrete.com/floorheating

STRATA_HEAT Thermostats

The STRATA_HEAT Radiant Floor Heating System is controlled by your choice of three thermostats which include two Wi-Fi compatible options. The Wi-Fi versions can be controlled through an app on a smart device offering easy set-up and operation with real-time information.

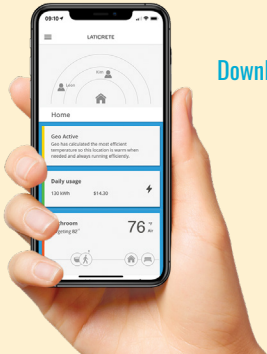

◀ The **STRATA_HEAT Smart LCD Thermostat** is Wi-Fi enabled and features a capacitive, high resolution full color touch screen for an exceptional user experience.

The **STRATA_HEAT Wi-Fi Thermostat** ▶ features a responsive LCD touch panel for an attractive, minimalist screen.

Both Wi-Fi thermostats use smartphone GPS location services to learn heating routines, applying the most efficient settings to optimize energy usage. They are also compatible with home automation hubs, allowing voice control of temperature settings through a digital assistant.

Download the STRATA_HEAT Thermostat App

The **STRATA_HEAT Programmable LCD** ▶ **Thermostat** features an easy to use touch pad display with manual programming.

STRATA_HEAT™ is part of the
LATICRETE Lifetime System Warranty* –
providing you one source, one warranty
from your substrate up through to your grout finish.

* See Data Sheet 230.99 for complete warranty information; see Data Sheet 230.13 for complete Thermostat warranty information.

^ See Data Sheet 107.7 for thin-set adhesive mortar compatibility. ** See Data Sheet 26.1 for detailed product information and coverage. § United States Patent No.: 9,777,931; 10,006,644; 10,215,423 † 3 or 4 peg spacing only; 3-2-3 spacing is not UL approved. v Savings of up to 15% is based on including both a WiFi-enabled thermostat and the STRATA_HEAT™ Thermal Pack within the installation.
